### **DETAILED ACTION**

The Amendments and Remarks filed 27 September 2005 have been entered.

#### ***Terminal Disclaimer***

The terminal disclaimer filed on 04 October 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent Application 10/624,597 has been reviewed and is accepted. The terminal disclaimer has been recorded.

#### ***Allowable Subject Matter***

Claims 1-28 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Re claims 1-25: The best prior art of record discloses a dual type organic EL display comprising many of the features of claims 1,17,22 and 25, including a sealant wherein the sealant hermetically seals the main and sub substrates in a state in which the main and sub substrates face each other. However, the prior art fails to teach or fairly suggest a dual type organic EL display wherein the sealant comprises a conductive spacer, as claimed in claims 1,17,22 and 25. Claims 2-16,18-21,23 and 24 are allowed by virtue of their dependency.

Re claims 26-28: The best prior art of record discloses a dual type organic EL display comprising many of the features of claim 26, including floating electrode lines formed on the main or sub EL device. However, the prior art fails to teach or fairly suggest a dual type organic EL display wherein the floating electrode lines send signals received from at least one FPC to a plurality of electrode lines on the device not having the floating electrode lines, as claimed in claim 26. Claims 27 and 28 are allowed by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
